Python for the Data Sciences, Part 2!

The python talk last week was very popular, so Matthew is continuing on with the material in another talk!

Adjunct faculty member Matthew Lane will be going over how to leverage the power of its many libraries. The talk will begin with a presentation of Numpy and then cover how to use panda in the data sciences. If you want to follow along, install the Anaconda package at https://www.anaconda.com/

Meeting and Talk: 10/9/2019

The talk and meeting will be held on Wednesday, Oct 9nd, 2019 in ESH 304 from 4:30 to 5:30 pm.

This talk is open to all students of UMSL with interest in Python and computing in general. The talk should be understandable for anyone with some introductory knowledge of a programming language.

Refreshments will be provided.
