Choosing Your Major

We have multiple degree programs related to Computer Science.

1. BS in Computer Science
2. BS in Computing Technology
3. BS in Cybersecurity

and multiple optional specializations using the available certificate.

- Data Science
- Cybersecurity
- Artificial Intelligence (pending)
- Computer Programming
- Computer Programming Education (pending)
- Mobile Apps and Ubiquitous Computing
- Internet and Web

You do not have to decide your major or specialization up front. You may start with any of our majors, and then switch to the major of your choice as your interests solidify - the initial courses are common to all majors, see here. The specialization certificates are optional.
