## Biographical/Historical note

---

From when he was 14 years of age until he retired in 1981, Captain Thomas E. Kenny compiled a photographic chronicle of nearly 2500 images on the Ohio, Mississippi, Missouri, Illinois, Tennessee and Cumberland Rivers. In addition, he carefully preserved and cataloged his collection, making especially helpful notes on the background of particular boats and locations. Captain Kenny's first subjects were steamboats, towboats and barges on the Ohio River. Captain Kenny later became a deckhand on the towboat Peace, and later still a river pilot, and he nurtured his passion for photography as well, becoming an increasingly skilled river photographer. During World War II Captain Kenny served in the Coast Guard as a ferry pilot, and the collection contains his scrapbooks of photography from the war years, including some shots of Europe. Upon leaving the service, Captain Kenny became the marine superintendent of the Wisconsin Barge Line, Inc., in Alton, Illinois, retiring in 1978 but remaining with the company as a consultant until 1981. Over his life on the rivers, Captain Kenny stood watch on fifty-one riverboats as a pilot, including the *Delta Queen*, and was a board member of the Sons & Daughters of Pioneer Rivermen.

## Scope and Contents note

---

The Captain Thomas E. Kenny Collection comprises of photographs, negatives, clippings, scrapbooks, and written records and documents pertaining to the life of Captain Kenny and the inland rivers of the United States, as well as some photographs pertaining to World War II. The collection is divided into six series, by subject: 1) Records; 2) General River; 3) Vessels; 4) People; 5) Railway; and 6) Scrapbooks.

Series One, Records, contains various forms of written records collected and written by Captain Kenny over the years, including LST Trips, account ledgers, river charts, and a manuscript for Captain Kenny's unpublished book, *Ol' River's Got You*.

Series Two, General River, contains mostly photos and clippings about subjects and places riverine.

Series Three, Vessels, contains photos, negatives and clippings about 492 River Vessels, arranged alphabetically, from the *A.B. Sheets* to the *Zeta*. Photos range from 1880s steamboats to 1960s motor vessels. Clippings are of a 20th century nature.

Series Four, People, consists of photos and clippings regarding people important to the inland rivers, including files on Captain Kenny himself (and some information about Captain Kenny's manuscript, *Ol' River's Got You*).

Series Five, Railways, contains photographs and negatives of things and places related to the railways of the United States - stations, railroads, trains and engines.

Series Six, , Scrapbooks, consists of 14 scrapbooks and one partial scrapbook, numbered 1 through 15. Each item in the scrapbooks, mostly clippings and photos, has been inventoried. Most of the items covered in the scrapbooks are photographs of vessels. They have been inventoried in order of appearance in the scrapbooks - a keyword search is the best way to locate a specific vessel in the scrapbooks.
