iPad Teaching Circle

UMSL has a growing number of faculty who are exploring how the iPad can support their research and teaching. We meet monthly to explore apps and ideas.

Join us on **Tuesday, November 18th**, 2-3 in the CTL conference room (589 Lucas Hall). We will focus on how to use the iPad in your research.

Please visit our website to register:

<http://www.umsl.edu/services/ctl/faculty/ipadteachingcircle/index.html>

Come with your questions. We will explore and learn together.

Have an iPad?

Join the iPad Learning Circle to share the innovative ways you use your iPad with other faculty.

Now You Can Print From Your Mobile Device

Are you interested in printing from a mobile device like your tablet or phone? The Xerox networked solution provides the ability to print from mobile devices using your primary UMSL email address.

You can print a file from your mobile device by sending it to or sharing it with tritonprint@umsl.edu. You must send the file from your UMSL email account. The file does not print directly, but rather it is sent to the Secure Release print queue. For example, from your device, use Outlook Web Access (<https://outlook.umsl.edu>) to attach a file to an email message addressed to tritonprint@umsl.edu. The email and the attachment will be sent to the Secure Release print queue.

Note: Supported formats for attachments are:

- Office documents: Word, Excel and PowerPoint (doc, dot, docx, rtf, eml, xls, xlt, xlsx, csv, ppt, pptx, pptm)
- HTML documents (htm, html, mht)
- Text file (txt)
- PDF documents (pdf)

You will also receive a confirmation email from TritonPrint indicating how to print and what files are ready for printing as shown in the example below:

TritonPrint Notification: All of your documents are ready for release
