American Society for Undergraduate Research 2015 St. Louis Symposium
April 25, 2015
All Day
Holiday Inn SW-Route 66
10709 Watson Road

This annual symposium is sponsored by the St. Louis Chapter of the American Undergraduate Research Society (STLAURS). This is a student-run organization representing students from several area universities, including SIU-E, SIU-C, St. Louis University, and Washington University. This is the first year that UMSL will be participating in this symposium, and we hope for a good turnout of undergraduate researchers. To encourage your participation, UMSL will cover all your registration fees, which includes the cost of a lunch on the day of the meeting.

You can find additional information on STLAURS and the 2015 symposium at http://www.stlaurs.org/Home. The posters will be grouped by academic discipline, and there will be awards for the top posters in each academic area.

Registration is done on-line at http://www.stlaurs.org/registration/participant. Most students will present posters, but when you register, you may request to give an oral presentation instead of a poster.

Application Deadline: Saturday, April 4, 2015

This event is not run by UMSL, but if you run into problems registering, please contact Dr. Harris in the Graduate School (wharris@umsl.edu), and we will try to assist you.
