Three Campus Libraries

**The Thomas Jefferson Library**
(North Campus. 314-516-5060) contains thousands of book and periodical subscriptions in a variety of disciplines such as the social sciences, humanities, sciences, and business. The Thomas Jefferson Library also has numerous items in microfilm and microfiche and is a United States Federal Government Documents Depository. Access to electronic resources is available through the Library’s website.

The collections of the **Ward E. Barnes Library** (South Campus. 314-516-5576) focus on nursing, optometry and education.

The **St. Louis Mercantile Library** (North Campus – in the Thomas Jefferson Library building. 314-516-7240) founded in 1846, is the oldest cultural institution west of the Mississippi. The Mercantile is comprised of books, manuscripts and art focusing on St. Louis and the Westward Expansion, as well as the Barriger and Pott Libraries, special libraries focused on the American Rail and River experiences.

The UMSL Libraries house two independent archival collections within the TJ Library Building:

- The **University Archives** (314-516-5129), a collection of the documents and records of the University of Missouri – St. Louis;

- The **State Historical Society of Missouri Research Center – St. Louis** (314-516-5143), collects, preserves, and makes available primary materials documenting the history of the city, the state, and the region.

New at the Libraries!
The UMSL Libraries website is undergoing a complete overhaul. The new website will ready as the semester begins.

When the new website is unveiled, it will contain a one-search box, with an as-yet undetermined name. The one-search box will search across the libraries’ web pages, catalog and databases to return results that Internet search engines can’t find. A mock-up of the one-search box (currently called “Summon”) is at the right.

Instead of paying for photocopies, scan your materials for free and send them to your email with our new Bookeye Scanners! The scanners are located on level 3 of the Thomas Jefferson Library and in the Ward E. Barnes Library.

A library café will be coming this fall.

Library Selectors and Departmental Liaisons
- Each department on campus is represented in the library by one of our staff members. This person consults with the departmental liaison and selects new materials to be added to the libraries' collections.
- If you have a suggestion for a book/resource the library should purchase, please contact the library selector or your departmental liaison.

Library Services
- **Library Instruction**—UMSL Librarians are available to conduct a library instruction session for your students. Contact Chris Niemeyer (x7008, niemeyer@umsl.edu) at Thomas Jefferson Library or Betsy Williams (x4322, betsy.williams@umsl.edu) at W.E. Barnes Library.
- **Interlibrary Loan**—The Interlibrary Loan (ILL) Department borrows materials from, and lends materials to, other libraries. To use Interlibrary Loan, please come to the Thomas Jefferson Library Circulation Desk or call the ILL extension at x5066. There will also be a link for ILL and other library services on the new website.
- **Reserves**—Faculty can request that books or videos be put on Reserve for their classes (paper materials such as articles and copies of tests should be embedded directly into MyGateway.) To reserve a book or video, please come to the Thomas Jefferson Library Circulation Desk or contact Barbara Hufker (x5399, sbjhufk@umsl.edu)

Electronic Resources at the University Libraries
In addition to the one-search box coming this fall, the libraries offer the following electronic resources:
- The MOBIUS Union Catalog allows faculty and students to retrieve books from over 60 libraries in Missouri;
- Peer-reviewed, full-text journal articles are available to faculty and students through subscription databases;
- Online library instruction tutorials covering search techniques, database searching, peer review, nursing, and much more (look under “Research Help” on the new website coming this fall);
- Research Guides covering many topics in the arts, humanities and sciences (look under “Research Help” on the new website coming this fall).
