St.-Louis**

**Presents the 31st in the Series of
Distinguished Alumni Lectures**

Yanina Levchinsky-Grimmond

Associate Director of Technology Transfer, Regeneron Pharmaceuticals,
Rensselaer, NY

*"My adventures in industry after Benton Hall, from short stints in
consulting to working for the Biotech Company of the Year"*

and the Departmental Awards Presentations for 2018

**Monday, April 30, 2018
Room 104 Stadler Hall**

Awards: 3:30pm, Lecture: 4:00 pm

Yana is an Associate Director of Technology Transfer in Regeneron Pharmaceuticals, where she has held various positions in analytical sciences and GMP manufacturing process transfer logistics since 2002. After receiving the B.S degree in 1997, in 1999, Yana completed an M.S. degree under the guidance of Janet Braddock-Wilking, who also advised her during 2 years of undergraduate research. Prior to Regeneron, Yana had a few brief stints as a validation consultant at Valicor associates, and as an R&D scientist at GE Global Research Center. She also interned with FDA while completing her MS thesis work. Yana and her husband Brian (Ph. D. 1999) have been based in the Albany, NY area since 2001. When not at work or traveling, Yana can most often be found pursuing various hiking and kayaking challenges in the mountains of the Catskill and Adirondack Parks.

There will be a reception following the lecture to honor the senior class, the department award winners and the Distinguished Alumni Lecturer on the second-floor atrium of the Science Learning Building
