NURSE 7954	Advanced Practice Nursing: Residency III	2-4

All students must complete 8 credit hours of Residency.

Sign-offs from other departments affected by this proposal

None

Rationale

For this change, we just took out the wording "Advanced Practice Residency" on the curriculum table to avoid confusion and to help with flow on that chart. The statement about residency credit hours was added to let students know up front about the amount of residency hours they will need for the degree program. The course NURSE 7209 Advanced Nursing Roles and the Role of the DNP was also removed, as it is not a "required" course for the curriculum, but can be taken as an elective.
