NURSE 6730	Leadership in Population Health I	4
NURSE 6731	Leadership in Population Health II	4

Sign-offs from other departments affected by this proposal

None

Rationale                      The updates to this section are to clearly delineate the required courses in the leadership track. The "or" confuses students and makes it appear they have an option to take one or the other course, but they only take specific courses, which is now laid out clearly with this update.
