Select one additional social work course at the 3000 level or above.		3
Total Hours		15

Sign-offs from other departments affected by this proposal

None

Rationale We are changing one of the required courses for the SW Minor. We are dropping Social Work 3210 as being required because that is the "advanced" policy class that students who are minoring do not necessarily need. They are still taking 2200 which is the introductory policy class and is adequate for the minor. (We also reviewed a few other Social Work programs to see what their minor requirements were and found no others requiring the upper level policy.) We are replacing it with Social Work 3700, Diversity and Social Justice which is core to social work.
