INTRODUCTION

The Herman T. Pott National Inland Waterways Library

The Herman T. Pott National Inland Waterways Library was established in 1985 with major funding from the Herman T. and Phenie R. Pott Foundation, a foundation with special interests in education and the preservation of river heritage. The Pott Library is an important national resource for scholars, river aficionados, and students of America's rivers because of its unique and extensive literary, archival and photographic collections of inland waterways materials.

Archival materials in the Pott Library do not circulate, but may be used by researchers at the library during [reading room hours](#). Researchers may arrange for copies of documents and photographs from the curator of the Pott Library for a fee, according to the St. Louis Mercantile Library's [Image and Price List](#).

The St. Louis Mercantile Library Association owns the publication rights to the unique materials in the collections of the Pott Library. Any materials from this collection used or quoted for publication should be credited as follows:

THE GREENE LINE COLLECTION

The Greene Line Collection at the Herman T. Pott National Inland Waterways Library contains papers, photographs, correspondence, newspaper clippings and vessel blueprints related to the Greene Line Steamers Corporation and its antecedent companies, as well as papers, correspondence and vessel blueprints of the U.S. Lighthouse Tender Wakerobin.

The materials in the collection date from the 1920s to the early 1960s. The collection consists of 30 half-size record boxes and four oversized boxes, totaling about 18 linear feet. It is subdivided into the following series:

Series 1: Business Records

Series 2: Financial Documents

Series 3: Correspondence

Series 4: American Waterways Operators

Series 5: Companies

Series 6: Vessels

Series 7: Miscellaneous

Series 8: U.S. Lighthouse Tender Wakerobin

Series 9: Oversized Documents

Series 10: Supplemental Materials

Materials in this collection are listed according to their folder title and folder number. The folder number consists of three numbers, such as 3-1-15, which represent: (series #) – (box #) – (folder #). The Greene Line Collection is designated as P10 (Pott 10).

HISTORY OF GREENE LINE STEAMERS INCORPORATED

Gordon C. Greene purchased the *H.K. Bedford* in 1890 in Newport, Ohio, where she ran in the Pittsburgh-Wheeling trade. The first boat built by Greene Line, the *Greenwood*, was built in 1898. By 1904, the company's fleet included the *Evergreen*, the *Greenland*, the *Kanawha*, the *Greenwood*, the *Chilo*, the *Courier*, the *Tacoma*, and the *Henry M. Stanley*. The *Greenland* made three trips to St. Louis that year, for the World's Fair. A huge fire at Cincinnati in 1922 claimed many boats, including the *Star*, *Tacoma*, *Island Queen* and *Chris Greene*, leaving the line with one steamboat, the *Greenwood*. Gordon C. Greene decided to build the steel hulled *Tom Greene*, which was completed in 1923 and named after Gordon's son. In 1925 another steel hulled vessel, the steamer *Chris Green* was built.

Gordon C. Green passed away at the age of 65 in 1927, and his body was carried back to Newport, Ohio aboard the *Tom Green*. Four years later, with Gordon's son Chris at the helm, the company bought the Louisville and Cincinnati Packet Company, and in doing so secured the downriver trade. 1935 saw the purchase of the *Cape Girardeau*, which was renamed the *Gordon C. Greene*, and in 1936 the Greene Line added the steamers *Evergreene*, *Carybird*, and *Ouachita*.

Captain Chris Greene died in 1944, of a heart attack. Captain Tom Greene took over the business.

Difficult times appeared in 1947. The *Carybird* was sold and freight business was discontinued on the Strs. *Tom* and *Chris Greene*. However, that same year the *Delta Queen* was purchased, which would soon become known as the flagship of the Greene Line. To get to Ohio, the *Delta Queen*, which was located in Sacramento, California, had to be towed through the Panama Canal. Once in New Orleans, the *Delta Queen* continued under its own steam up the Mississippi and then the Ohio Rivers, to her new home. Captain Mary Greene, the family matriarch, passed away aboard the *Delta Queen* in 1949, and Captain Tom passed away a year later.

With the freight business drying up along America's rivers, Tom's widow, Letha was forced to sell the steamers *Evergreene*, *Chris*, *Tom*, and *Gordon*. The Greene Line celebrated its 75th anniversary in 1964, and soon thereafter (in 1969) was sold to Overseas National Airways (ONA).

SCOPE AND CONTENT NOTES

The Greene Line Collection traces the development of Green Line Steamers Incorporated, as well as its antecedent companies through correspondence, financial documentation, business records, photographs, blueprints and memorabilia. The years covered by the collection are the 1920s through the 1950s.

Alphabetical arrangement has been employed where appropriate to facilitate usage. Most of the collection is described at the folder level. Some of the collection is described at the box or item level.

In addition, the collection boasts a sizeable amount of documentation and blueprints covering the *U.S. Lighthouse Tender Wakerobin*, a vessel that was of personal interest to the previous collector of the Greene Line Collection. When the Greene Line Collection was acquired, the materials regarding the *Wakerobin* were included. The *Wakerobin* materials consist of correspondence, operational records, and blueprints pertaining to the vessel from the 1920s through the 1950s.

Series 1

Series 2

Financial Documents

Series 2 consists of records related to the financial operations of Greene Line Steamers Incorporated and its antecedent and related companies, such as Gordon C. Greene Incorporated, the Cincinnati Pomeroy & Charleston Packet Company and Greene Line Terminal Incorporated. The series consists of 4.5 linear feet – boxes 3 through 11. Related material may also be found in series 9 (Oversized Documents).

Series 2 has further been subdivided into 6 subseries, as follows:

1. Annual Reports
2. Financial Records
3. Taxes
4. Miscellaneous
5. Receipts
6. Checks

Because this collection is mostly a business collection, receipts and cancelled checks were not de-accessioned. It was judged that there may be some value to the researcher in them, as the researcher will possibly be interested in the business aspect of Greene Line Steamers, Inc.

Subseries 2-1 (Annual Reports) consists of annual reports to the Department of Taxation of the State of Ohio, for the years ending January 1st, 1936 – 1948. It also contains an annual report to the Interstate Commerce Commission (ICC) for the year ended December 31, 1946. This subseries is located in box 3.

Subseries 2-2 (Financial Records) consists of trial balances, expense and revenue ledgers, working papers, and related financial documentation for the years 1922 – 1962. These records cover Greene Line Steamers Incorporated, as well as Greene Line Terminal Incorporated, the Cincinnati Pomeroy & Charleston Packet Company, and Gordon C. Greene, Inc. This subseries is located in boxes 4 – 6.

Subseries 2-3 (Taxes) consists of tax information for the years 1936 – 1949. Correspondence has been included where relevant. This subseries is located in box 7.

Subseries 2-4 (Miscellaneous) contains records of a varied nature having to do with the financial operations of Greene Line Steamers Incorporated and its related and antecedent companies. This subseries is located in box 8.

Subseries 2-5 (Receipts) has been processed to the box level (boxes 9 and 10). Box 9 contains receipts dated 1936 – 1940, and box 10 contains receipts dated 1940 – 1957.

Subseries 2-6 (Checks) contains checks, check stubs, and accompanying statements of accounts for the years 1947 – 1958.

Series 4

American Waterways Operators

Series 4 consists of records dealing with the American Waterways Operators (AWO). Because the records are varied in nature, they have been included in their own series, rather than split up into other areas. Series 4 contains correspondence with the AWO and Greene Line Steamers Incorporated, meeting minutes, and miscellaneous documentations, as well AWO publications such as annual reports, special bulletins, and weekly bulletins for the years 1944 – 1947. Series 4 consists of 0.5 linear feet – box 13.

Series 10

Supplemental Materials

During May, 2011, the Pott Library purchased additional items for the Greene Line Collection. Among these items are correspondence; Steamer Delta Queen blueprints and “start-up” information; Steamer Gordon C. Greene items; Greene Line ledgers and logs as well as serving items such as compotes.

The Steamer Wakerobin was not a Greene Line boat but blueprints from that vessel are included in this supplemental series as well.
